

POSITION Technical Lead – Full Stack
DURATION Permanent
LOCATION REMOTE (Canada)
SALARY \$125,000 – \$135,000
Annual Bonus + Lead Annual Retention Bonus + Benefits

About Our Client.

A multi-billion organization and the global leader in Building Automation Systems, our client brings some of the most energy efficient and sustainable solutions to buildings around the world, working together toward our shared vision of developing technologies aimed at reducing global warming and ensuring a sustainable future for mankind. Our client's products are the most energy efficient power products in the industry and include a comprehensive range of energy management solutions in Industrial Automation, Telecom Power, UPS and Data Center Infrastructure, Automotive Electronics and Energy Storage Systems.

The Challenge.

As a Technical Lead, you will work with your project teams to create leading-edge solutions for worldwide use in the Building Controls industry. Your ability to innovate, problem-solve and quickly adapt to change is very important in this role, as you will work on rapidly evolving products in a rapidly evolving industry.

About You.

You will have proven experience with leading software development team, deep understanding of technology, and excellent problem-solving skill.

Skills / Knowledge.

- 5+ years' experience as a full stack software developer
- 2+ years' experience as a technical lead
- Strong experience with JavaScript ES6+, React, Angular, Node.js, PHP, Python
- Experience with Cloud Firestore, Firebase, and PostgreSQL
- Experience with Google Cloud Platform or other major cloud services (e.g. AWS, Azure)
- Bachelor's degree in Computer Science/Engineering or equivalent experience
- Experience with micro-services framework
- Experience with virtualization and containerization (e.g. Docker, Kubernetes)
- Experience with Jenkins/Bamboo build jobs, CI/CD pipelines, and Jenkins file
- Experience with shell/bash

All qualified applicants will receive consideration for employment. If you qualify for this position, we encourage you to apply by submitting a cover letter and resume to ao@masarykco.com
